## About Swash®

Swash® offers comfortable and complete personal hygiene. This is thanks to the use of moist bathing products. As a result, the use of water and soap is a thing of the past. Consisting of five complementary product categories, Swash® can be coordinated to meet individual's daily hygiene needs; and no matter which Swash® products selected, every product has a guaranteed high and consistent quality and ensures the best possible bathing experience.

The Swash® products are divided in 5 groups:  
Body wash, Antiseptic, Incontinence care, Hair care and In-between care.

.....

## Our five product categories

### Swash® Body wash

A complete, comfortable and hygienic body wash in one single step.

### Swash® Antiseptic

Universal decolonization with 2% Chlorhexidine Digluconate (CHG). Proven effectiveness against MRSA, VRE & ESBL in 1 minute.

### Swash® Incontinence care

A standardized incontinence care method with Hyaluronic Acid and/or 3% Dimethicone. Preventive protection against IAD or control IAD in an early stage.

### Swash® Hair care

Easy, quick and comfortable hair wash and conditioning.

### Swash® In-between care

Freshen up in-between baths.

## The advantages of Swash®

PH-SKIN NEUTRAL

HYPOALLERGENIC

FREE FROM FORMALDEHYDE (RELEASERS)

LATEX FREE

DERMATOLOGICALLY TESTED

PRODUCED IN A CLEANROOM ENVIRONMENT

PRODUCTS CAN BE WARMED UP

RINSE FREE – NO NEED TO DRY

# body wash

.....

The Swash® bathing products are especially designed to provide a daily rinse free full body wash for care recipients with impaired mobility and the need of assisted bathing due to their health condition. Swash® uses a system of wash gloves and wipes soaked in a special lotion which cleans and nourishes the skin. One package of 8 Swash® gloves and wipes is sufficient for one complete, hygienic body wash. By bathing every body part with a separate bathing wipe or glove in one single step, Swash® reduces the number of unnecessary moves and the risk for cross-contamination to a minimum.

# antiseptic

The patients' skin is a source of bacteria that can cause infection. By rapidly removing the bacteria from the skin and providing persistent antimicrobial effect, the risk of infections is reduced.

The Swash<sup>®</sup> antiseptic products offer a mild antiseptic bathing system impregnated with a rinse free, 2% Chlorhexidine Digluconate cleansing lotion. This lotion kills harmful bacteria on the skin and hair and eliminates a wide variety of microorganisms that can cause infections. The active ingredient stays on the skin and hair for persistent decolonisation. The antiseptic Swash<sup>®</sup>-products are proven effective against many different pathogens (Bactericidal gram-positive – DIN EN 13727:2013, Bactericidal gram-negative – DIN EN 13727:2013, Yeastcidal – DIN EN 13624:2013) within 1 minute following DIN EN 1500:2013 requirements.

# incontinence care

Swash® Incontinence Care prevents the development of IAD and keeps it from spreading in its early stages, before the condition can worsen and pressure ulcers can occur.

**Swash® Perineum** 3-in-1 products are moistened wash gloves or wipes infused with a skin protectant, 3% Dimethicone. This silicon-based oil leaves a thin layer on the skin, protecting it from humidity and irritation while being non-occlusive, hence allowing the skin to breath.

**Swash® Perineum+** 4-in-1 products have the benefits of the 3-in-1 products plus the special Trixotric®-Formula: The Swash® Perineum+ products put a protective, but breathable, layer on the skin, while supporting the skin's restoration with the help of the Trixotric®-hydrogel—a combination of hyaluronic acid, hydrogel and natural clay.

**Swash® Cleansing Wipes** or **Swash® Dry Gloves** can be used for a first cleaning.

# hair care

Swash® hair care products make it easy to wash hair with no need to rinse. The products can be used every time the care recipient wants to wash his/her hair. The hair washing process takes only a few minutes because it reduces the need to turn or move the body. This ensures minimal stress for both care recipient and caregiver. The result is clean and fresh hair, that is ready to be styled.

# in-between care

.....

The Swash<sup>®</sup> Refreshing Wipes are soft, moist wipes, especially developed to freshen up in-between baths. The wipes are suitable for every skin type and offer a mild cleansing at any moment; before and after dinner, on a hot summer day, before a special activity or just before bed. The wipes also support good hand hygiene.
